

National Mathematics Day

Shivalik Public School, Phase 6, Mohali celebrated National Mathematics Day with great enthusiasm, aiming to strengthen students' critical thinking, logical reasoning, and creativity. Students participated in a range of engaging mathematical activities.

Class III students explored geometric shapes and number patterns through activities. Class IV conducted an Inter-House Mathematics Quiz, with Subhash House emerging as the winner, along with activities on perimeter and poster making. Class V students learned about angles through clock designs and created posters on great Indian mathematicians.

Online Maths Quiz was conducted in all the sections for all the students for classes III-V. Dodging Tables competition for all classes was also organised to enhance multiplication skills.
