

Mock Drill on Disaster Preparedness

In an effort to promote safety awareness and emergency readiness, a mock drill was conducted for the students of Class X under the guidance of the Disaster Management Club at Shivalik Public School on 14th May 2025. The activity aimed to familiarize students with proper evacuation procedures in

case of a disaster such as an earthquake or fire. As the emergency signal was sounded, students promptly vacated their classrooms in a

disciplined manner and assembled on the school playground, following the designated evacuation routes. Teachers and coordinators closely monitored the drill to ensure every student followed the safety protocols. After the mock drill, a short informative session was conducted to educate students on the dos and don'ts during various types of disasters. The drill successfully instilled a sense of responsibility and preparedness among the students. The school management appreciated the initiative of the Disaster Management Club and emphasized the importance of such drills in equipping students with lifesaving skills. Shivalik Public School continues to uphold its commitment to the safety and well-being of its students.
