

Monthly Planner for Class -V

Dear Parent,

Greetings from the Shivalik family!

Welcome to the vibrant month of July. July marks the midpoint of the year, a perfect time to reset, refocus, and realign our goals as we move forward with purpose and positivity.

The Skill of the Month is SUSTAINABILITY

Sustainability is designed to help students develop important skills like responsibility, critical thinking, and problem-solving while learning how to care for our planet. Through this focus, they will build habits that promote respect for the environment and thoughtful decision-making.

In July, we're focusing on two key United Nations Sustainable Development Goals:

* SDG 1: No Poverty – Exploring how we can create fair opportunities for everyone and support communities in overcoming poverty.

* SDG 2: Zero Hunger – Learning how to ensure everyone has access to enough safe and nutritious food through smart choices and sustainable practices.

We are sharing the syllabus to be covered in this month:

ENGLISH	HINDI	PUNJABI	MATHS	EVS
