

WORLD POPULATION DAY

Shivalik Public School, Mohali

The school celebrated World Population Day with enthusiasm. A PowerPoint presentation highlighting the importance of the day and the ways to arrest the population explosion in the world was shown to students. A discussion spearheaded by the teachers made the students aware of the problems that the unchecked growth of population in the world could lead to. Students were encouraged to write articles on the World Population Day. Slogan-writing and poster-making competitions were also held in the school to highlight the significance of the day.
