Dated: March 11, 2020

ADVISORY

Dear Parents,

You may be aware of the Novel Coronavirus reported from China. As of now, there is no drug or vaccine available to manage this disease. Hence preventive measures become crucial to stop spread of this disease.

Creating awareness about preventive interventions such as frequent hand wash, respiratory etiquettes, using handkerchief over mouth while coughing/ sneezing, use of tissue paper or using the sleeve of shirt covering upper arm, staying away from school when sick, avoiding public gathering etc. will help in preventing/ reducing transmission of not only this disease, but also large number of other communicable diseases, notably flu like illness.

In view of the above, you are requested to take initiatives to help your child follow these simple public health measures that will go a long way in preventing spread of Novel Coronavirus disease.

Anupkiran Kaur
