WOMEN'S RIGHTS MOVEMENTS

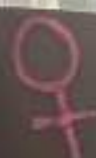

Women have increasingly been able to fight for their rights and have gained an increasing number of rights. In 1920, women were given the right to vote in the United States. This was a major step towards equality. Women have also fought for equal pay, equal opportunities, and other rights. They have made great progress in the past century.

Women have made great progress in the past century. They have fought for equal rights and have won many battles. They have made great contributions to society and have helped to shape the world we live in today.

Women have made great progress in the past century. They have fought for equal rights and have won many battles. They have made great contributions to society and have helped to shape the world we live in today.
